24 Hour Emergency Response

Down time costs money!

Our 24-hour "Quick Response" Emergency service is available 365 days a year to provide you with the help you need as soon as possible. Call us any time day or night, and we'll be on the job fast with certified technicians and the right parts and to fix the problem, and get you up and running.

Modernization & Relocations

Improve your operational performance by reducing operating and maintenance costs. We can give your aged crane new life by modernization to meet your new production demands.

Our specialist are capable of modifying or relocating any type of crane as we are experts in the industry.

Crane Operator Training

Our Operator Training Programs cover topics specific to your facility, equipment and industry to ensure the safety of your employees. Hands- on training is conducted using equipment your employees operate every day.

Several programs are available for custom presentation at your facility. On-site training is an affordable alternative.

Radio Remote Controls

FLEX EX series of radio remote controls provide a cost-effective solution to the restrictive use of hardwired pendants. These durable radios are ideal for use in material handling, overhead crane, mobile hydraulic, and industrial applications. Flexible and reliable the radio remote control allows the operator to liberate themselves from the crane and take a position offering a safer view on the load and work area.

BENIFITS
