- ▶ **DURABLE** range of Hi-Performance fabrics to choose from
- ▶ **CUSTOM** sizes available

SPECIFICATIONS

Generally designed to suit 10' wide x 10' high openings. The series D500 provides full access to the rear of the trailer while creating a tight seal against the top and rear of the trailer. The collapsible frame is designed to retract upon impact from the trailer thus reducing pressure against the curtains and extending the life of the unit. This also allows for less pressure against the building wall. With one of the largest selections and colours of fabrics available, LDC can offer the ideal solution for your unique loading dock requirements.

LDC offers a wide variety of custom shelters to satisfy your dock requirements

- 1 Galvanized tubular framing
- 2 Stiffeners in head & side curtains help to maintain constant pressure against trailer ensuring a tight seal
- 3 Raked head frame diverts water to sides
- 4 Protective "I" beam
- 5 Replaceable foam bottom pads seal gap between truck and building
- 6 Protective wear flaps on head curtain help to extend life of unit
- 7 24" yellow guides ensure accurate placement of trucks
- 8 Translucent polyethylene sheeting with UV inhibitors allows light into loading dock area
- 9 Foam filled edge creates a complete seal against truck
- 10 Galvanized trim angle will not rust
- 11 Double layer of protective fabric on bottom 24" of side curtains
- 12 Optional "REFLECTIVE GUIDES" to protect your investment
- 13 Optional Gusset available (strongly recommended)

CUSTOMIZE YOUR DOCK TO SUIT YOUR SPECIFIC NEEDS

Conventional foam pads protect against weather, but restricts access to the trailer opening.

LDC's D500 retractable shelter provides full access to the rear of the trailer.

LDC can customize your dock seal with the ideal fabric for your application from a wide range of colours and fabrics available.

- 22 oz Hi-Tear Vinyl
- 32 oz Hi-Tear Vinyl
- 40 oz Hi-Tear Vinyl
- Hi-Performance Arctic Seal (NEW)
- 16 oz Hi-Tear Hypalon
- 40 oz Hi-Performance Hypalon
