JIB CRANES • OVERHEAD CRANES

MONORAILS • CRANE PARTS

INSPECTION CERTIFICATION • OPERATOR TRAINING

THE CRANE SERVICE EXPERTS

O'Brien Lifting Solutions Inc. utilizes a team of certified experts servicing overhead cranes, jib cranes, workstation cranes, gantry cranes, monorails, lifting beams and hoists. With over 60 years of industry experience, you can be certain you are getting the best value for all of your material handling requirements.

BIG ENOUGH TO KNOW. SMALL ENOUGH TO CARE.

ON-SITE CRANE INSPECTIONS

O'Brien offers a complete Material Handling Preventative Maintenance Inspection service that conforms with the occupational Health and Safety Act. Our inspection services can be performed on site or at our facility.

- Operational inspections of all functions and safety devices.
- Detailed visual inspections of load hooks, load chains or wire ropes.
- Operational testing to determine possible internal gear problems.
- Check all oil levels in gear boxes.
- Remove Covers to check such items as brakes and electrical components.
- Perform minor adjustments as required.
- Complete visual inspections of each unit, with detailed written reports of our findings.

EXTENSIVE PARTS INVENTORY

We value the importance of workflow efficiency - that's why we carry one of the largest parts inventories in Canada for cranes & hoists of all makes & models. What you're looking for is always in stock - In our facility, or on the road with our vehicle service fleet; and if it's not in stock, we'll track it down.

24/7 RESPONSE TEAMS

Downtime costs you money! That's why our 24-hour Quick Response Emergency Service is available 365 days a year - To provide you with the support you need, as soon as you need it. With the right people & the right parts, we'll have you up and running in no-time.

MODERNIZATION & RELOCATION

We give your aged crane new life to meet your growing production demands. Reduce your overhead through maintenance & operational cost savings, and improved workflow efficiencies. Our specialists are capable of modifying and/or relocating any model of crane.

CRANE OPERATOR TRAINING

Our Operator Training Programs cover topics specific to your facility, equipment and industry to ensure the safety of your employees. Hands-on training is conducted using the equipment your employees operate every day. Several programs are available for custom presentation at your facility. On-site training is an affordable business solution.

RADIO REMOTE CONTROLS

FLEX EX series of radio remote controls provide a cost-effective solution to the restrictive use of hardwired pendants. These durable radios are ideal for use in material handling, overhead crane, mobile hydraulic, and industrial applications. Flexible and reliable, the radio remote control allows the operator to liberate themselves from the crane and take a position offering a safer view on the load and work area.

THE BENEFITS

- Wireless Handheld
- Flexible and Efficient Performance
- Strong and Reliable
- Secure and Dependable Communications
- Available in 4, 6, 8 and 12 Button Style
